IMAGINE VINCENT

The Sequel

CITY OF VINCENT

Thank you for being part of the City of Vincent's major review of its Strategic Community Plan (SCP).

An SCP is the overarching strategic document for all Local Governments and sets out visions and aspirations for the community over a 10-year period. The SCP is then used to inform the rest of the City's planning processes.

There was a minor review of the current SCP in 2020 and we need your help to ensure that the City is continuing to progress towards the vision of being;

"a leafy and vibrant 24 hour city which is synonymous with quality design and sustainability. Where it's diverse population is supported in their innovative endeavours by a Council that says YES."

There is a [briefing pack](#) (see City staff) that provides background to activities from the existing plan and a snapshot of the projected changes for the City in coming years. Please take some time to review the pack before completing the survey.

This survey will take about 10 minutes to complete, and your responses are anonymous.

If you are ready to share, we are ready to listen. The result will be collated and presented to a community panel to help refine, prioritise and advise the city on the next version of its SCP.
