

Disability, Access & Inclusion Plan

Share your Story, Shape our Community!

Are you interested in helping shape the City of Vincent's next Disability Access and Inclusion Plan (DAIP)?

We would love to hear about your experience, ideas and what matters most to you. If you would like to know more, continue reading.

What is this project about?

Our current Access and Inclusion Plan ends in 2027 and we are developing a new DAIP.

We want to hear from people with lived experience of disability so we can better understand what's working well, what barriers still exist and what changes would make the biggest difference. Your experiences and ideas will help shape a plan that reflects the needs and priorities of our community.

Who is collecting the stories?

We've engaged a local consultant to collect your stories and feedback.

Our consultants, who also have lived experience of disability, will listen to your story and share key themes and insights with the City to help inform the new DAIP. Your privacy is important to us. Any personal or identifying information will remain confidential and won't be shared without your permission.

Who should share their story?

We'd like to hear from people with lived experience of disability, including:

- People with disability
- Family members and carers
- Support workers
- Disability advocates
- Others who support or have experience of disability in their daily lives

What will I be asked to do?

You will be invited to share your experiences, ideas and stories in the way that works best for you.

Your feedback will help us understand how we can improve access and inclusion across Vincent so more people can access services, facilities, programs and opportunities and participate fully in community life.

What do I get for being involved?

We know your time is valuable and appreciate you sharing your experiences with us.
