Deemed-to-Comply:

Deemed-to-comply provisions provide a straightforward means for the development proposal to demonstrate that it satisfies the objectives and design principles of the R-Codes and City's Built Form Policy. They outline the expected development standards that should be met through this pathway.

Design Principle/ Local Housing Objectives:

The design principles and local housing objectives pathway offers an alternative merit-based approach when one or more of the deemed-to-comply provisions are not satisfied. This allows for innovative design responses that may be more context and site responsive. Where a deemed-to-comply provision is not met, the proponent should provide sufficient justification to demonstrate how they have met or exceeded the requirements of the relevant design principle(s) and local housing objectives when this pathway is pursued.

The City is undertaking community consultation to seek input from interested residents; it is not to be taken as any actual or implied support for the application. A decision on the matter will not be made until after the conclusion of the consultation period, following review of all submissions.

Proposal Summary:

This application is seeking approval for a proposed upper floor addition to the existing single house development. The proposed upper floor is wholly located above the existing building footprint and does not seek to extend beyond the existing lot boundary setbacks.

The development seeks an external wall height departure to the planning framework. The proposed addition complies with the relevant standards to visual privacy (overlooking), solar access to adjoining properties (overshadowing), street setbacks and lot boundary setbacks.

Details of aspects requiring local authority discretion:

Deemed-to-Comply Provision	Proposed	Design Principle/ Local Housing Objective	Comment
Building Height			
Permitted maximum external wall height: 6m	Proposed maximum external wall height: 7.3m	Residential Design Codes - Clause 5.1.6 Building Height P6 <i>Building height that creates no adverse impact on the amenity of adjoining properties or the streetscape, including road reserves and public open space reserves; and where appropriate maintains:</i> <ul style="list-style-type: none"> <i>adequate access to direct sun into buildings and</i> 	

Deemed-to-Comply Provision	Proposed	Design Principle/ Local Housing Objective	Comment
		<p><i>appurtenant open spaces;</i></p> <ul style="list-style-type: none"> <i>adequate daylight to major openings into habitable rooms; and</i> <i>access to views of significance.</i> <p>Built Form Policy - Clause 2.1 Building Height</p> <p>O2.1 <i>Height that is situated on a site to minimise amenity impacts to neighbouring properties, heritage places and the streetscape.</i></p> <p>O2.2 <i>Development that incorporates design measures to reduce the impact of height, bulk. and scale on neighbouring properties and the streetscape.</i></p> <p>O2.4 <i>Design which is complimentary to existing developments.</i></p>	

(If you wish to provide further comments regarding the above matter, please attach a separate page to this form.)
