Deemed-to-Comply: These are the minimum applicable standards, where a development meets the 'deemed-to-comply' requirements this provides a straight forward pathway to approval.

Where a proposal does not meet the 'deemed-to-comply' provisions and therefore seeks to apply the Design Principles then the approval of the decision maker is required for those matters only.

Design Principle: A proposal is required to demonstrate compliance with design principles where is does not satisfy the corresponding deemed-to-comply provisions.

Please note all provisions are open to the exercise of judgement based on the design principles and relevant objectives for that element.

The City is undertaking community consultation to seek input from interested residents; it is not to be taken as any actual or implied support for the application. A decision on the matter will not be made until after the conclusion of the consultation period, following review of all submissions.

Details of aspects requiring local authority discretion:
